***Early Printed
Books 1482-1640***

A chronological list

2012

Introduction

All the early printed books from 1482-1640 on this chronological list are also listed in the Library catalogue, so it is straightforward to search for a specific author or title. What is very difficult however is to gain a general overview of the collection as a whole by browsing the material, which this listing allows the user to do.

Up to half the publications listed originally belonged to the lecturer, bibliographer and boxing correspondent John Crow, and were a core part of his library of ca12,000 volumes given to the Library in 1970 by Professor Molly Mahood. Acquired at a time when early printed books in imperfect condition were easy to come by, and relatively cheap, this is definitely a collection for use and handling, specifically in seminar work.
