

Bernard Weatherill – Organisations

Weatherill, in his capacity as MP for Croydon North East and later with the added role as Speaker as the House of Commons, was in great demand to lend his name to charities and various organisations. Within the Houses of Parliament and in his constituency there were a considerable number of causes he actively supported and he built up a formidable array of local societies and national organisations with which he was involved.

Below is a selected list of organisations in which he held an honorary post and for which documents survive in the archive.
