

THE OUTREACH PROGRAMME

KENT & MEDWAY PROGRESSION
FEDERATION/UNI CONNECT

KENT'S OUTREACH PROGRAMME

At the University of Kent, we believe that anyone who has the academic ability to study at university should have the opportunity to do so.

This is why we are committed to our involvement with local secondary schools, encouraging young people to see the value of higher education and to understand the positive impact it can have on their lives.

Every year, as part of our commitment, the University works with thousands of students across Kent and Medway. Through our progressive curriculum and our programme of outreach events, we can work with your students throughout their secondary school career, to give them a clear view of their future options. Our range of in-person and online events are specifically designed to support students, giving them the confidence to make informed choices about their future. We can also work collaboratively with you to design and deliver projects specifically aimed at supporting student attainment and developing the skills which support achievement.

We monitor our work and its outcomes very closely to assess its impact. Kent works closely with a national monitoring and outreach service called the Higher Education Access Tracker (HEAT, www.heat.ac.uk). We collect data from your students during outreach activities, which enables us to track their educational journey through HEAT. Through our data analysis, we can see:

- which of our activities are most helpful in inspiring students
- how well outreach participants do in their school qualifications
- whether they enter higher education
- how well they perform at the end of their university course.

To support you, we can share outcome data and insights about your students with you.

Based on the data we have collected over the years, and the insights this has given us, we have designed our outreach programme to maximise its impact.

Our outreach delivery is further enhanced by the support of our fantastic team of student ambassadors, all current Kent students, many of whom previously attended our partner schools.

“I particularly enjoy knowing that we make a difference to students every time we work. Observing their developing confidence and excitement in their own potential is wonderful.”

Kent Student Ambassador

THE OUTREACH PROGRAMME

Our work with the Kent and Medway Progression Federation

The Kent and Medway Progression Federation (KMPF) is a partnership of local universities, colleges and over 49 schools. Together, we work to raise the aspirations and attainment of young people from backgrounds who might not otherwise consider progression to higher education. The majority of young people with whom we work are from disadvantaged backgrounds or comprise first generation higher education applicants, meaning they are the first in their immediate family to go to university.

We also provide activities as part of the Kent and Medway Collaborative Outreach Programme (KaMCOP), which is funded through Uni Connect and managed by KMPF. These activities are targeted at young people from specific wards across Kent and Medway.

How to access our wide programme of outreach events

As a KMPF school you have access to a wide programme of outreach events and activities. Examples are provided here but full details are available on the KMPF activities portal www.kmpf.org/events or our website www.kent.ac.uk/outreach

To receive our regular schools' bulletin with details of all our upcoming activities, please email outreach@kent.ac.uk

Our flexible approach

Outreach delivery has changed significantly over recent years and as a result we have developed a comprehensive range of online activity. This includes:

- self-guided resources
- teacher-led programme materials
- live online delivery in the form of talks and workshops.

All of this enables us to offer schools the most flexible methods of delivery possible in an ever-changing learning environment.

The online outreach activity we offer is intended to enhance and complement our in-person delivery. It also offers schools additional flexibility and the opportunity to open access to outreach to larger student cohorts. Please discuss your priorities and requirements with your Outreach Activities Co-ordinator, who can recommend the most suitable activities and delivery methods for your students.

*“The students loved the session –
I really enjoyed doing it”*

KEY ACTIVITIES

KMPF

Year group	Event	Event details
7-11	Assembly talks*	25-minute talk to introduce students to higher education and student life.
8-9	What Happens Next? GCSE Choices*	An interactive talk which looks at students' GCSE options and asks them to consider the importance of their choices for future opportunities.
9	University Life*	A one-hour workshop designed to answer the 'Who? What? When? Where? How?' questions about university. Participants are encouraged to reflect on possible reasons for going to university, what they could study there, where they might live and how studying at university differs from being at school.
10	Research-themed campus visit	A visit to the University of Kent's Canterbury or Medway campus, designed to increase your students' understanding of academic life at university. Students explore a research theme and participate in both a lecture and a seminar led by academic staff or postgraduate students.
12-13	Where Next? Post-18 Choices*	A programme of talks designed to give your students an insight into what it is like to study at university and whether higher education is the right option for them. This includes a visit to the University of Canterbury campus.
Parents	The Value of Higher Education*	For parents with children in any year group, this talk explains the benefits and advantages of going to university and includes an opportunity for parents to ask questions.

KAMCOP (Uni Connect)

Year group	Event	Event details
10	The Confidence Series	A series of workshops designed for students who need support to improve their self-confidence and to reach their full potential in the classroom. In-school workshops are followed by a visit to our Canterbury campus.
10-11	What Happens Next? Level 3 Options*	An interactive talk which looks at students' Level 3 options and asks them to consider the importance of their choices for future opportunities.
10-11	Exam Success Package	A three-part, online programme for students in Year 11, designed to prepare them for their upcoming GCSE exams. It gives students the opportunity to consider how they should prepare for their exams and provides guidance on coping with exam stress.
12	Succeed	A programme run over a sustained period, designed to help young people in Kent and Medway to explore the opportunities and challenges offered by higher education in a safe, inclusive environment, with the support of friendly, knowledgeable University staff and ambassadors.

*Online or in school

ADDITIONAL BENEFITS

Our work with the University of Kent academic divisions

Our experience over many years has shown that university outreach activities can make a real impact on students in schools and can help them to make effective choices about their future.

Kent has some of the best teaching staff in the country and they support and challenge young people to reach their full potential. Working closely with teaching staff and students within the University's academic departments, we offer a rich and varied programme of subject-focused events to share our passion for learning and inspire students to go on to higher education.

These activities run according to school interest, academic staff capacity and on identified dates throughout the academic year.

How will the outreach programme benefit my students?

The outreach programme introduces students to the concept of higher education in Year 7 and builds their knowledge as they progress through secondary school. In addition, we offer opportunities for developing key skills that are necessary for educational success. Our data shows that the average attainment 8 score of disadvantaged students (those eligible for free school meals) who participated in outreach is 2.5 points higher than school average. For all outreach participants, their attainment 8 score is 3.4 points higher than school average*.

We have also found that, for those who choose to progress to higher education, disadvantaged outreach participants are 2.2 percentage points more likely to achieve their degree than their peers who did not participate in outreach. Over 52% of these students were awarded a first or upper second class degree.**

Other benefits of working in partnership with the University of Kent

All the activities outlined here are free to KMPF schools. In addition schools benefit from support and guidance provided by our team of outreach activities co-ordinators who meet regularly with them to discuss students' needs and how to respond to them.

Students from KMPF schools who make an application to study at Kent may be eligible for a Kent contextual offer, see www.kent.ac.uk/applicants/policies/contextual-admissions-policy They can also apply for our stipend scholarships see www.kent.ac.uk/outreach/scholarships-and-funding

“Talking to student ambassadors who are doing similar subjects to those I'm interested in made me more interested in applying. I realise having a degree can give me more options in life – and that's always good.”

Year 12 Summer School student 2022

*Based on latest data available, from exam year 17/18

**Latest data available is for 19/20 entrants

OUR ON-CAMPUS EVENTS

We find inviting students on to campus to participate in events is a great way to familiarise them with University life, show them the quality of the facilities available and introduce them to a different style of teaching.

The table below gives a sample of events we run on campus each year. The full range of our activities is available on our website, www.kent.ac.uk/outreach

Year group	Event	Event details
6-9	Sustainable Futures	Students build problem-solving and teamwork skills through a series of hands-on STEM workshops with opportunities to hear more about careers in STEM from industry professionals. We also encourage students to take part in a school-based research project in the lead up to the event.
7-11	Lego League	An international programme designed to bring science to life for schoolchildren aged nine to 16 through themed activities including a hands-on robot challenge and scientific research.
8	World Languages Day	Students spend a day on campus learning about other languages and cultures. They can try learning a new language and use the ones they are already studying to take part in practical workshops, games and fun activities.
9-11 and 12-13	Debating Day	Multi-school events offering the opportunity for teams to compete using the British Parliamentary Debate (BDP) style.
9-11 and 12-13	Our Changing World	Aimed at students interested in geography, conservation, anthropology, politics or economics, this day explores how our changing world impacts our communities now and how we might live in the future.
10-12	Believe and Achieve	Aimed at students studying law, criminology, sociology or related subjects, this day focuses on breaking the barriers around this field. Students explore a range of careers, attend a careers' fair and take part in a Q&A session with academics and current and former students.
10 and 12	Summer Schools	An opportunity for students to explore their options and experience University life at our residential summer programmes on the Canterbury campus.

"I really enjoyed the day and how the different activities linked to language."
