What is Clearing?

Clearing is for everyone who is still looking for a place at University.

This could be for students who:

- applied through UCAS but didn't receive any offers by 30 June
- received unexpected exam results and need to look for alternative courses
- had a change of heart since they applied to UCAS and want to explore other options
- didn't meet the conditions of their firm or insurance choice
- haven't applied through UCAS before

Keep checking – universities update their course information regularly

Check the course details – how is it **structured** each year? What **modules** make up each year? What are the **entry requirements**?

Discuss the options with your students

Step 2: submit an application

Step 3: UCAS hub

Once applicants have received an offer and decided where they want to go, they must accept the offer of a place via their KentVision applicant portal and then refer their application to Kent via their UCAS Hub.

The offer letter will include the correct UCAS course code that must be used when making the Clearing application on UCAS track.

On UCAS Hub: Go to the 'Your choices' section of your application and click 'Add Clearing choice.' Then enter the details of the course.

Only add a Clearing choice if you've been given permission by a uni.

Once the UCAS application has been linked to our Clearing Application System your applicant will appear on your normal list of students under the 'Manage Applications' section, and you will no longer be able to access it via the Clearing system.
